

“The Yanmar has outlasted the hour meter”

YANMAR
marine 

“It was an important day when we made the decision to repower our shore boat with the Yanmar Marine Diesel Engine. The Yanmar engine has proven itself many times over to be the right choice! The hour meter stopped at 10,000 hours and we now have over 15,000 hours on the engine and it is still running smoothly ...

When it is time to replace the engine, I guarantee it will be a Yanmar Marine Diesel! In fact we have a Yanmar Marine Diesel Engine in our 32 Grand Banks race committee boat. Yanmar is our choice for reliable smooth running diesel engines.”

– Rafer Sipple, Dockmaster

Boatswain's Locker is proud of our 65 year heritage serving the marine industry. Our company is driven by our "Core Values" of Integrity, Trust, Honesty, Teamwork, Accountability and Quality for both our customers and our environment.
